PROFILE

BCA graduate specializing in web development with expertise in Full Stack development and AI tools. Proven ability to create responsive, user-friendly websites using modern tech stack. Experienced in Firebase, payment gateways, and real-time databases. Strong problem-solver committed to continuous learning.

WORK EXPERIENCE

Electrotech Automation
Web Developer Intern
OCTOBER 2024 - DECEMBER 2024

- Designed dynamic websites using HTML/CSS/JavaScript and Bootstrap
- Integrated email functionality for forms and user interactions
- Focused on responsive design principles and optimized user experiences

Psyche Panacea
Web Development Trainee
JULY 2025 - OCTOBER 2025

- Psyche Panacea is a business company started in 2001 and used a WordPress site.
- I made a new coded website using HTML, CSS, JS, and Bootstrap in one month.
- The new site is faster, mobile-friendly, and looked better.
- I handled updates and fixed issues until the end of my internship.

KEY PROJECTS

- Sports Eligibility Platform - Payment-based athlete eligibility system with coach database covering 22 states, featuring secure transactions and user management

- Travel Expense Tracker - Real-time expense management application with multi-currency support, automatic conversion, and spending analytics

- Women's Empowerment Portal - platform connecting women-owned businesses with customers, featuring store listings, profiles, and job opportunities
